### Sun Hydraulics Reports 13th Consecutive Quarter of Double Digit Sales Growth, 11th Consecutive Quarter of Double Digit Growth in Earnings

SARASOTA, FL, Aug 08, 2006 (MARKET WIRE via COMTEX News Network) — Sun Hydraulics Corporation (NASDAQ: SNHY) reported financial results for the second quarter of 2006 as follows:

(Dollars in millions except net income per share)

	July 1, 2006	July 2, 2005	Increase
Three Months Ended			
Net Sales	\$36.9	\$31.0	19%

Fully Diluted	\$0.77	\$0.65	18%

<sup>&</sup>quot;We continued to see strong demand across all segments in the second quarter," said Allen Carlson, Sun Hydraulics' President and CEO. "Sun has reported double digit growth in sales and earnings going back to 2003 and we expect more of the same for the third quarter as orders heading into the quarter remain strong and steady."

"We are continually looking at better, more efficient ways to make our products," Carlson explained. "To achieve this, we have accelerated capital investments that will further improve capacity and productivity."

Concluding, Carlson said, "We expect strong sales, further productivity improvements and nearly a full quarter of the price increase to result in improved earnings next quarter."

#### Stock Buyback

In June, 2006, the Board of Directors announced a stock buyback of up to \$2.5 million. The stock buyback was completed in July 2006, with the entire \$2.5 million being repurchased.

#### Recognition

During the quarter, Sun was included in Business Week's "Top 100 Hot Growth Companies of 2006" (ranked #61) and also included in Fortune magazine's "2006 Small Business 100" list (ranked #14). In addition, as of July 1, 2006, Sun qualified for and was included in the new NASDAQ Global Select Market, by meeting the highest initial listing standard established by NASDAQ when it became a stock exchange.

<sup>&</sup>quot;Sales and orders were strong in the second quarter, although earnings were constrained due to additional material and fixed cost increases," Carlson continued. "Productivity gains have offset much of the previous years' cost increases. However, this year the additional costs have outpaced productivity gains. Consequently, in July, we implemented a mid-year price increase to stem further margin erosion and improve future earnings."

#### Outlook

2006 third quarter sales are estimated to be approximately \$36 million, a 25% increase over the same period last year. Third quarter earnings per share are estimated to be between \$0.38 and \$0.40 per share, compared to \$0.27 per share last year, approximately a 44% increase in earnings.

Important factors that could cause the actual results to differ materially from those in the forward-looking statements include, among other items, (i) the economic cyclicality of the capital goods industry in general and the hydraulic valve and manifold industry in particular, which directly affect customer orders, lead times and sales volume; (ii) conditions in the capital

markets, including the interest rate environment and the availability of capital; (iii) changes in the competitive marketplace that could affect the Company's revenue and/or cost bases, such as increased competition, lack of qualified engineering, marketing, management or other personnel, and increased labor and raw materials costs; (iv) changes in technology or customer requirements, such as standardization of the cavity into which screw-in cartridge valves must fit, which could render the Company's products or technologies noncompetitive or obsolete; (v) new product introductions, product sales mix and the geographic mix of sales nationally and internationally; and (vi) changes relating to the Company's international sales, including changes in regulatory requirements or tariffs, trade or currency restrictions, fluctuations in exchange rates, and tax and collection issues. The Company disclaims any intention or obligation to update or revise forward-looking statements, whether as a result of new information, future events or otherwise.
